

Greetings!

I would like to congratulate you on raising your child to be so big and strong. Growing older means something special – the Tooth Fairy! As your child grows, they will lose all 20 of their baby teeth. Because there are so many kids, with so many teeth, I just want to warn you that I like to start off with something small – like \$1.00 – that way I am not broke by tooth #20. Also, if you could pretty please let me know as soon as a tooth needs to be collected, it will ensure that I have time to make it to the tooth fairy bank!

See you soon,
